

## DRYING SYSTEMS

We manufacture drum dryers that designed to reduce the moisture content of the seeds of fruits such as grape, pomegranate and rosehip by 5%. Our tray dryers, which we developed for low capacity producers, can be used to dry fruits, vegetables and herbs. We have the ability to manufacture custom made dryers depends on your needs. We are trying to contribute to manufacturers by using energy saving systems in all types of dryers, from the lowest capacity to the highest capacity.
